All persons seeking a new building and/or demolition permit (which exceeds 5,000 square feet) must identify all materials expected to be generated as a result of the building or demolition project at the time of permit application. Permittees must demonstrate that at least 50% of the materials generated for discards by the project get recycled.

At the conclusion of the project, the permittee must report all tons recycled and disposed by material type and file a "Construction and Demolition Recycling Report" (see attached) with the Street Department. For questions call Street Department at 408-615-3080.

Check all materials expected to be generated as a result of this project:

Use the Facility Identification Number listed in the "Construction and Demolition Debris Recycling Resource List" (attached). If the facility does not provide weights, please use the conversion factors listed below. Show computations in the space provided. [Example: 300 cubic yards of asphalt (300 c.y. x 0.69 tons/c.y. = 207 tons)].

Material Type	Tons per Cubic Yard
Mixed Materials	0.25
Asphalt	0.69
Brick	1.512
Cardboard	0.05
Concrete	0.9275
Dirt/Clean Fill	1.00
Lumber	0.165

Material Type	Tons per Cubic Yard
Plastic	0.1705
Roofing Materials	0.209
Metals	0.453
Green Waste	0.054
Sheetrock	0.197
Salvaged Items	estimate weight
