8. PUBLIC HEARING ITEMS

8.A. **File No.(s):** **PLN2012-09096/ CEQ2012-01138**
Address: 2121 Laurelwood Road, a 7.02 acre parcel on the north side of Laurelwood Road approximately 940 feet north of Thomas Road, (APN: 104-14-153). Property is zoned Light Industrial (ML)
Applicant: John Duquette, ARC Tech Inc.
Owner: SPI Holdings, Inc.
Request: **Rezone** from Light Industrial (ML) to Planned Development (PD) to construct a six-story 217,000 square foot office building, one-story 9,300 square foot amenity building, one-story 4,000 square foot retail building, three level parking garage and surface parking lot totaling 896 spaces, landscaping, and site improvements, in conjunction with demolition of an existing 100,000 square foot furniture retail/warehouse building; and **Adoption of a Mitigated Negative Declaration**
CEQA Determination: Mitigated Negative Declaration
Project Planner: Debby Fernandez, Associate Planner
Staff Recommendation: **Recommend City Council Adoption** of the Mitigated

Negative Declaration and **Approval** of the rezoning,
subject to conditions

Notice: The notice of public hearing for Item 8.A. was posted within 500 feet of the site and mailed to property owners within 500 feet.

Discussion: Debby Fernandez gave a brief presentation on the project and noted that the Airport Land Use Commission (ALUC) requires an added condition to provide an avigation easement to the City of San Jose due to the project residing within the airport referral boundary.

The Commission inquired about the height of the neighboring Biltmore Hotel and how approvals were achieved for that project without requiring a PD rezoning such as for this proposal. Staff noted that a Use Permit was approved to allow the Biltmore Hotel and did not have the height of the building in feet as requested by the Commission.

The Commission then expressed concern for the implication this project, combined with other recently approved projects, would have on traffic in the area. The Environmental Consultant, Shannon George with David J. Powers and Associates, noted that all background and approved projects were included in the traffic analysis along with potential traffic impacts from the proposed project, which were determined to be non-significant.

The Commission discussed condition P14, which requires a Transportation Demand Management (TDM) program to reduce overall vehicle trips.

John Duquette, representative for the applicant, gave a presentation highlighting design features, landscaping, and location of the project.

The Commission inquired about the potential tenants of the property and the applicant was not privy to the identity of the prospective tenants. The Commission discussed the potential employee occupancy in the building and common commute hours and how those aspects could impact traffic in the area.

The Public Hearing was opened.

Byron Renfro, with Orchard Commercial, stated that his company owns adjacent parcels at 2055 and 1995 Laurelwood Road and that they support this proposal. He stated that the proposal, if approved, will improve the area and attract better tenants. Mr. Renfro added that the building they own is 90% leased and traffic has not been a problem in the area.

The Public Hearing was closed.

The Commission voiced support for the project but reiterated concern about traffic impacts. Staff stated that the area is not pedestrian or bicycle friendly making it heavily reliant on vehicle transportation. The Commission noted that there is an imbalance of jobs and housing in Santa Clara and that this project would deepen the imbalance. Staff acknowledged the concern but also stated that the housing market is strong and the General Plan promotes the addition of housing in Santa Clara in an ongoing 1:1 jobs/housing balance.

Motion/Action: The Commission motioned to adopt a resolution recommending that the City Council adopt the Mitigated Negative Declaration and Mitigated Monitoring and Reporting Program for the project located at 2121 Laurelwood Road (6-0-0-0).

The Commission further discussed the TDM program and the possibility of increasing the minimum reduction of vehicle trips from three-to-five percent (3-5%) to fifteen percent (15%) in an effort to help reduce negative traffic impacts to the area. The applicant requested that the minimum reduction be held to five percent (5%) as fifteen percent (15%) is very limiting for

potential tenants.

Motion/Action: The Commission motioned to adopt a resolution recommending that the City Council approve the rezoning request from Light Industrial (ML) to Planned Development (PD) for the project located at 2121 Laurelwood Road (5-1-0-0, Kelly dissenting) with the following amended condition:

1) P14: The Developer/Owner shall implement the project Transportation Demand Management (TDM) program that includes elements to reduce vehicle trips by five percent (5%) or more.
